Guide de fabrication : collection de dés

Rôle Pédagogique :

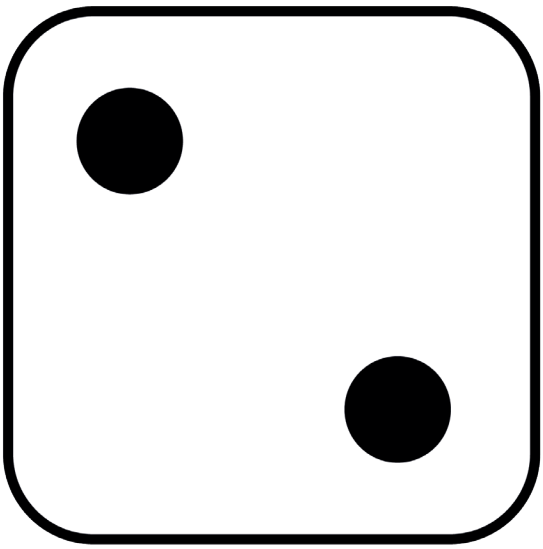

Cet ensemble de cartes-dés aide à construire le sens de la multiplication. Chaque carte montre une collection de paquets identiques, matérialisés par des dés, pour amener les élèves à identifier et verbaliser le « nombre de fois » et la « valeur de chaque paquet ». Les cartes servent aussi aux activités de doubles et de moitiés.

Deux formats au choix, selon l'usage :

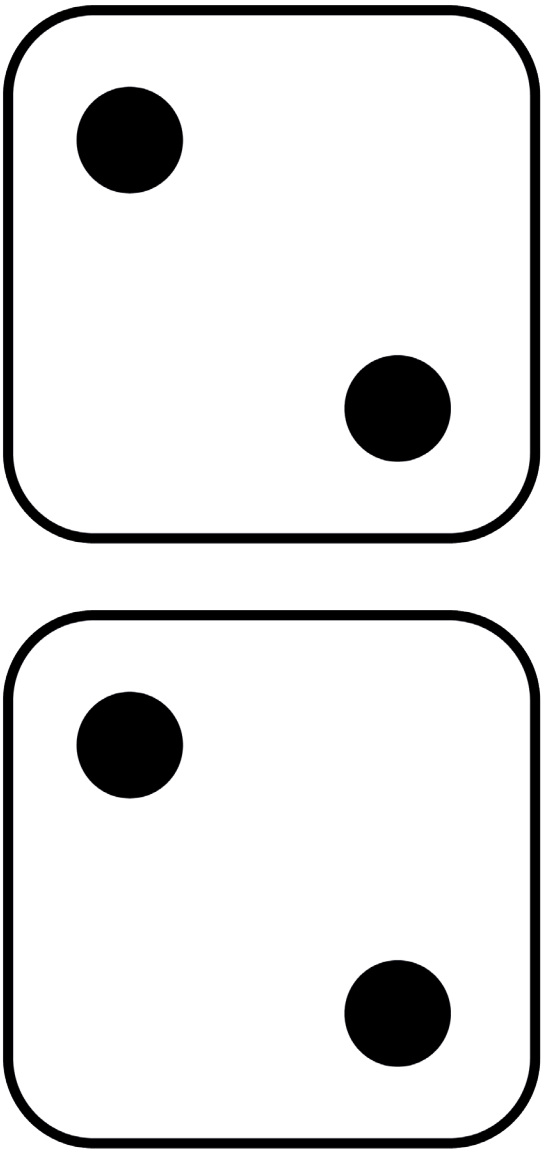

Grandes cartes (une collection par page). Imprimez puis plastifiez ces pages pour obtenir de grandes cartes, lisibles depuis le fond de la classe. Aimantées ou fixées au tableau, elles se posent côte à côte pour composer une multiplication sous les yeux des élèves (par exemple « 3 dés de 2 » à côté de « 4 dés de 2 ») et se prêtent aux démonstrations collectives.

Planches à découper. Les mêmes dés sont aussi proposés en plus petit, regroupés sur quelques pages. Imprimez, plastifiez et découpez ces planches pour constituer rapidement un stock de cartes-dés à manipuler, en groupe ou individuellement.
